

R.G. **LAKSHAN RASHMIKA**

WEB DEVELOPER

Since September of the previous year, I've been immersed as a trainee software engineer at Ceyentra Pvt Ltd, while also pursuing a degree at London Metropolitan Campus, anticipated to conclude by 2025. My focus lies in working with frameworks, allowing me to combine academic insights with practical application. The dynamic environment at Ceyentra has enabled me to cultivate valuable software development skills, while my ongoing studies provide a strong theoretical foundation. This dual-track journey equips me with a holistic perspective, empowering me to contribute effectively to projects and further bridging the gap between classroom learning and real-world implementation. As I progress, I eagerly anticipate synthesizing these experiences into a successful career in software engineering.

## WORK EXPERIENCE

I am a web developer in this company and these are my participated projects and currently I am working here.
